In the following program, we list all events just as we could foresee them in 2021: online in the first quarter of 2022 and then mainly in presence. However, the Corona situation in Germany may change at any time. We are preparing to be able to offer all events online. The dates will remain the same! The information whether the respective event takes place online or in presence, can be found in the specific invitation, which we will send you at least 4 weeks in advance.

Participation is free of charge for scholarship holders, as well online as in person.

10 International Ecumenical Summer School: "Divided United. Ecumenism in the digital space"

**Online** ● 4th-8th July 2022 ● 5 Participants

Especially the church related and theological scholarship holders are addressed to participate in this summer seminar. Due to the current pandemic situation, the seminar is planned as online event. The lectures of the internationally known speakers, who belong to different denominations and religions, will therefore take place in a digital way. The core of the summer school is the exchange between the participants from many parts of the world and the intensive reflection on the lectures. Thus, especially in times of required distance, the intensive conversation should be made possible in order to appreciate ecumenism and interreligious dialogue for what they are: understanding among nations, peace-building and therefore essential.
